# XIX SPORTME SURGERY CONFERENCE

## “APPLICATIONS OF MESENCHYMAL STEM CELLS DERIVED FROM ADIPOSE TISSUE (MFAT)”

Experts in Sports Traumatology and Regenerative Medicine

**MONDAY, MAY 11, 2026**

**Venue: SportMe Medical Center**  
C/Tabladilla 2, Seville

For information and reservations:  
**954280198** or [info@aemr.es](mailto:info@aemr.es)

Registration: 425 euros

AEMR Alumni: 300 euros

Online Format (Deferred): 225 euros

**Spanish Academy of Regenerative Medicine**

At **SportMe Medical Center** we celebrate the **19<sup>th</sup>** edition of our **SportMe Surgery Conference**, this time focused on the use of mesenchymal stem cells derived from adipose tissue.

Theoretical conference + 2 live cases performed in our center “live”.

Therapies based on autologous adipose tissue have gained increasing prominence in the field of regenerative medicine and orthobiology. Among them, **microfragmented adipose tissue (MFAT)**, **nanofat** and **stromal vascular fraction (SVF)** represent different processing modalities of adipose tissue, with relevant differences in composition, tissue architecture, cellular profile, and potential clinical applications.

## PROGRAM

- 8.30 am Welcome.
- 8.45 am **Conference: Indications of Mesenchymal Stem Cells in Osteoarthritis**
- 9.30 am **1st Case Arthroscopic Knee Surgery + MFAT Application + Platelet Rich Plasma**
- **11.00 am Coffee Break**
- **11.30 am 2nd Case Arthroscopic Knee Surgery + MFAT Application + Platelet Rich Plasma**
- 1.30 pm Closing of the Conference.
